PRINCESSE FAVOLOSE

A very exciting series, with a contemporary flavour. Its absolute stars: **reinvented princesses**. Steering clear of common clichés, which have nothing more to say, Silvia Roncaglia picks the archetypal figure everyone dreams of, to invent completely new fables, elegantly and wittily illustrated by Elena Temporin and Sara Not.

DINODINO

Dinobig weighs thirty tons, is incredibly strong but a little slow on the uptake; **Dinojumper** can jump really high and hopes he'll be able to fly one day; **Dinodiver** has webbed feet and can swim; **Dinorunner** is super-fast; **Dinodino** is inventive and ingenious!

Together they are known as the Fivedinos, five dinosaur friends.

- **DINO FOR ALL, FIVE FOR DINO!** - is their motto and the promise that they will always help each other.

And help is exactly what the Fivedinos need: in the forests and savannahs of the Jurassic age they have to stand together to face all sorts of unearthly dangers: active volcanoes, carnivorous plants, hungry tyrannosauruses, giant spiders, earthquakes and much more. But luckily, thanks to their individual characteristics, their friendship and Dinodino's witty and undisputed leadership, they always manage to get themselves out of trouble!

LUMPI LUMPI

A **new series** starring a little boy and his imaginary friend Lumpi Lumpi, a little blue dragon that breathes cold fire and blows different-coloured smoke rings out of his nose, depending on his mood. Giampi has lots of fantastic adventures with his PD, his "Personal Dragon", and during the entertaining little stories, the roles are reversed: Lumpi Lumpi is the small one who gets into lots of trouble and Giampi is always the one getting him out of it. Just like in real life when mummies sort out the little scrapes that their children sometimes get into when they are a little naughty.
